STRUCTURED (OR HEXAGONAL) WATER

This water that's found in nature and in our cells. It's the most bioavailable state of water. Unfortunately, aging is causing the loss of structured water in our bodies. But there's a way to improve it.

KANGEN WATER

Kangen water is, at the most fundamental level, hydrogen water. Its creator company, Enagic, produces a machine that takes regular tap water, filters out impurities, and then separates the hydrogen and oxygen in the water, which is called electrolysis. The result is an "alkaline, antioxidant, mineral-rich, pure, safe, and healthy drinking water."

The human body is made of 60% water which tells us how important clean and healthy drinking water is for our health and wellbeing.

RADIC 8

We may not be able to see it, but our indoor air contains harmful levels of invisible particulates, toxic fumes, and dangerous germs.

Exposure to common indoor air pollutants can cause stroke, heart disease, chronic obstructive pulmonary disease, lung cancer, and acute respiratory infections.

Poor indoor air quality has been linked to a reduction in a person's ability to perform specific mental tasks requiring concentration, calculation, and memory.

Radic 8 has Cutting-edge technology designed to filter, neutralize, and decontaminate indoor air. Requiring low maintenance, our devices are proven and tested, with installations in a range of industries worldwide.
